

Artuvetrin® Itching Scale

Mark the amount of itching of your pet on a scale from 1 to 10

5

4

3

How itchy is your animal?

This scale is designed to measure the severity of itching.* Read all the descriptions below starting from the bottom. Then use a marker pen to place a mark anywhere on the vertical line that runs down the left hand side to indicate the point at which you think your pet's level of itchiness lies. Itching can include: scratching, biting, licking, chewing, nibbling or rubbing.

10 =	 Extremely severe itching / almost continious De jeuk stopt niet, wat er ook aan afleiding is. Zelfs niet in de wachtkamer van de dierenarts wanneer hij/zij wordt afgeleid. Severe itching / prolonged episodes Itching might occur at night, or wake the dog up. And also when eating, playing, exercising or being distracted. Moderate itching / regular episodes Itching might occur at night, or wake the dog up. No itching when eating, playing, exercising or being distracted.
9 =	
8	
7 =	
6 _	
5 =	Mild itching / a bit more frequent
4 =	No itching when sleeping, eating, playing, exercising or being distracted Very mild itching / only occasional episodes
3 =	
2 =	Your pet is slightly more itchy than it was before the skin problem started.
1 =	Normal pet I don't think itching is a problem.
