ALLERGENS

ALLERGEN NEUTRALISING
SPRAY

ALLERGONE

Pet's Relief®

Innovative solution for neutralisation of house dust allergens.

Reduces the exposure to house dust allergens, which helps to reduce the allergic symptoms.

ALLERGONE

DUAL MECHANISM OF ACTION

1

NEUTRALISES MAIN ALLERGENS OF HOUSE DUST

ALLERGONE spray contains an aqueous suspension of microcapsules. The core of microcapsules is filled with a mixture of substances affecting the chemical structure of allergens particles.

2

REDUCES THE RISK OF ALLERGEN EXPOSURE

ALLERGONE forms a polymer film that glues dust allergens in larger particles stopping them from floating in the air and allowing aggregated allergens to be removed easily with conventional cleaning.

APPLICATION SITES

Rug and carpets

Bedding

Mattresses

Upholstered furniture

Soft toys

Curtains

LONG-TERM EFFICACY

With innovative microcapsulation technology (Slow Release™ Technology):

- **Long-term protection** against house dust mites – **5 months** after a single application
- **Controlled release** of the components provides increased safety standards – **proven safety**

HIGH EFFICIENCY

Packaging of 400 ml is enough to spray a surface of approximately **40m²**.

10
mattresses

EASY TO USE

Evenly covers large surfaces
Odorless and stain free formula

Pet's Relief is a registered trademark of **Nextmune**
